## More information

Robert Clausen graduated from Central High School in Omaha and attended Omaha University. He was employed as an assistant buyer at the Miller Cereal mills.

He volunteered for the Air Corps of the Army of the United States at Fort Crook, Nebraska on 5 January 1942.

At the target intense flak and heavy fighter opposition caused considerable damage to many aircraft in the formation. This aircraft was hit by flak and was last seen on the return trip over the North Sea, in trouble but under control, losing altitude and straggling behind the formation.

It ditched in the sea. Five crew members survived and were taken prisoner, five men were killed.
