## More information

---

1st Lt Donald L. Ahlwardt was a clerk. He volunteered for the Air Corps of the Army of the United States at Fort Des Moines, Iowa on 31 December 1941.

On their way to the target, the formation crossed another formation that was returning without bombing their target, due to bad weather. The airplane collided head on with plane 42-31112, killing the entire crew of both planes.

There is a contradiction about the exact place where the plane crashed. According to certain documents, it crashed in Itzehoe, but other documents mention that the body of Thomas Robey washed ashore in Busum on 5 May 1944. This can mean that the airplane crashed in the North Sea.
