More information

Sgt Francis E. Castle graduated from Le Roy High School and worked in the fabrication of plastic products.

He enlisted in Rochester, New York on 23 October 1942.

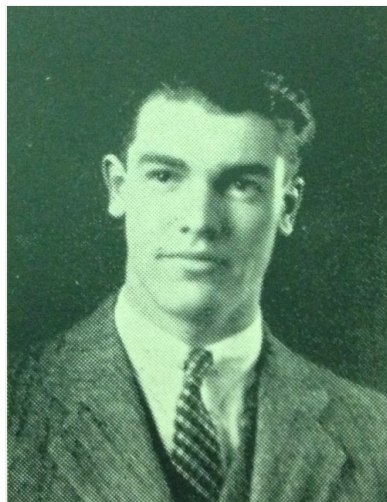

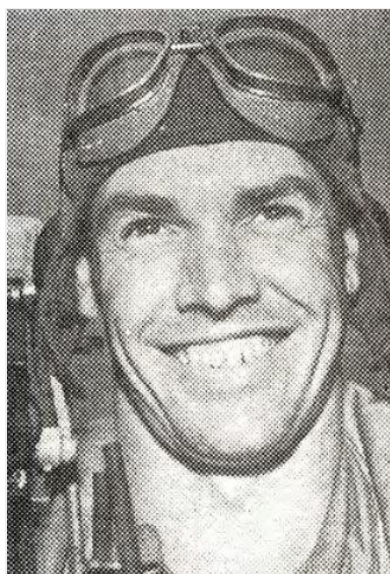

The airplane was attacked by enemy aircraft. It was hit in the tail section and #1 engine. The airplane went into a spin when the wing blew off. Six crew members bailed out and were taken prisoner, four men were killed.

According to a statement of a Dutch civilian, K. Steenhuis, he discovered the airplane two weeks after it crashed. The reason it wasn't found earlier was because of a storm. He found four bodies and carried them to the cemetery of Uithuizermeeden. When the Germans arrived at the cemetery, the remains of all four men were buried. This was on 23 December 1943.

He was disinterred by the 3059th QM Graves Registration Company and evacuated to Margraten where he was buried in a temporary grave on 19 November 1945. After being disinterred a second time and after the cemetery was given a permanent status, he was given his final resting place in February 1949.

This was his third mission.
